Greetings from Jose Candelario Bravo Preciado, the brother of Roman Munoz. I came to this country about 10 years ago and I have always worked in the fields, harvesting fruits and vegetables. I profess the Catholic faith, as do all my siblings and my parents.

I am one of the siblings of Mister Munoz. I met him when I was about 7 years old. I met him at that age because I lived in Mexico, and he lived here in the United States. I remember when I met him, I was very nervous, because I had no idea what he was like or even how he looked. When I met him, his first reaction was to give me a hug and from that moment, we began a very dear relationship as brothers.

I describe my brother Roman as a man of faith, because he helped people in Mexico with clothing and shoes. He is a man of great perseverance; he was always seeking to reach his goals in life. He was always responsible at his work, I saw him here in the United States, how he did all his work thoroughly and on time.

I don't know much about his childhood and adolescence because of our difference in age, he is a child of our mother's first marriage, and I am a child of her second marriage. What I can tell you about his childhood are the things that were said amongst our family, that he was raised without a father, and he started working at a very young age, which led him to emigrate to the United States, because of the financial, educational, and social deficiencies in Mexico at that time.

I'm aware of his offenses and the reason why he is incarcerated. Whatever his sentence is, personally he will have all my support, both financial, spiritual, and emotional. For my part, I will help him with housing, financially, and I will help him find work, because I know he is an independent and hardworking man.
